

10 JUN 1971

Environmental Protection Agency
Office of Air Programs
5600 Fishers Lane
Rockville, Maryland 20852

Attention: Dr. John T. Middleton
Deputy Assistant Administrator
for Air Programs

Sirs:

By a letter of May 26, 1971 from Dr. Middleton the Department of State was informed that the National Air Pollution Control Administration has been removed from the Department of Health, Education, and Welfare and established as an independent agency known as the Environmental Protection Agency, Office of Air Programs with offices in Rockville, Maryland. Therefore, notice is hereby given that the Department of State has, in accordance with these changes, corrected its records pertaining to Exchange-Visitor Program No. G-V-239, designated February 29, 1968. Following is the current official description of Program No. G-V-239 (amended to reflect the change in name of the sponsor) which should be inserted in full in Item 7 of Forms DSP-66 issued subsequent to receipt of this letter:

A program of the Agency to provide at its facility in Research Triangle Park, North Carolina, opportunities for research and research training in air pollution and related problems, for qualified foreign specialists, to promote the general interests of international exchange.

Dr. Middleton is the listed Responsible Officer for administering Program No. G-V-239. If Dr. John H. Ludwig is to continue to act as Dr. Middleton's alternate in this regard, this letter should also be brought to his attention.

Very truly yours,

For the Secretary of State:

Paul A. Cook

National Air Pollution Control Administration
U. S. Public Health Service
Department of Health, Education, and Welfare
801 North Randolph Street
Arlington, Virginia 22203

Attention: Dr. John T. Middleton,
Commissioner

Sirs:

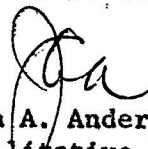

Notice is hereby given that in accordance with the Administration's letter of February 9, 1970, the Department of State has amended the Administration's Exchange-Visitor Program No. G-V-239 to delete reference to the National Center for Air Pollution Control. Following is the current official description of Program No. G-V-239 which should be inserted in full in Item 7 of Forms DSP-66 issued subsequent to receipt of this letter:

A program of the Administration to provide opportunities for research and research training in air pollution and related problems, for qualified foreign specialists, to promote the general interests of international exchange.

Dr. John H. Ludwig has been listed as alternate to Dr. John T. Middleton with respect to his duties as the listed Responsible Officer for administering Program No. G-V-239. The Administration's files relating to the Program and the enclosed regulations and General Instructions should be made available to Dr. Ludwig to enable him to carry out his duties as required.

Very truly yours,

For the Secretary of State:

Attention: Dr. John T. Middleton,
Commissioner

Sirs:

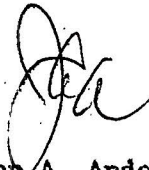

Notice is hereby given that in accordance with an Annual Report dated May 26, 1969, the Department of State has corrected its records with respect to Exchange-Visitor Program No. G-V-239, designated February 29, 1968, as sponsored by the Bureau of Disease Prevention and Environmental Control to show the change in name and address of the sponsor to National Air Pollution Control Administration. Following is the current official description of Program No. G-V-239 which should be inserted in full in Item 7 of Forms DSP-66 issued subsequent to receipt of this letter:

A program to provide at the National Center for Air Pollution Control opportunities for research and research training in air pollution and related problems, for qualified foreign specialists, to promote the general interests of international exchange.

The Administration is encouraged to list with the Department of State the name and title of an officer who will act as alternate to Dr. John T. Middleton with respect to his duties as the listed Responsible Officer for administering Program No. G-V-239.

National Center for Air Pollution Control
Public Health Service
Department of Health, Education, and Welfare
Washington, D. C. 20201

Attention: Dr. John T. Middleton, Director NCAPC.

Sirs:

Notification is hereby given that Bureau of Disease Prevention and Environmental Control, National Center for Air Pollution Control, has been designated the sponsor of an Exchange-Visitor Program in accordance with the administrative regulations issued under the Mutual Educational and Cultural Exchange Act of 1961 (Public Law 87-256, also known as the Fulbright-Hays Act). The person to whose attention this letter is addressed is listed in the Department's records as the Responsible Officer. The Program is identified as Exchange-Visitor Program No. G-V-239 and the following official description is to be inserted in Item 7 of Form DSP-66 issued:

A program to provide at the National Center for Air Pollution Control opportunities for research and research training in air pollution and related problems, for qualified foreign specialists, to promote the general interests of international exchange.

The sponsor of an Exchange-Visitor Program is contributing to the educational and cultural exchange authorized by the Mutual Educational and Cultural Exchange Act, the objective of which is to increase mutual understanding between the people of the United States and the people of other countries and to assist in the development of friendly, sympathetic and peaceful relations between

the

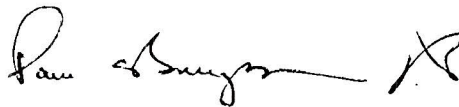

the United States and other nations. This objective cannot be realized unless the persons who participate in the Exchange-Visitor Program return abroad to exercise the skills and knowledge acquired in the United States and thus foster a better understanding of our way of life. All persons participating in the Exchange-Visitor Program are therefore subject to the provisions of Section 212(e) of the Immigration and Nationality Act, as amended, which is discussed in Section 63.6 of the enclosed Exchange-Visitor Program Regulations.

Particular attention is invited to Section 63.5(b) of the Regulations which sets forth the general limits set on the stay of exchange visitors in the United States. The General Instructions for sponsors also enclosed provide important information concerning the duties of the Responsible Officers, the issuance of Form DSP-66 and the required annual report on Program operations. An initial supply of Form DSP-66 "Certificate of Eligibility for Exchange-Visitor Status" is enclosed for the use of the Responsible Officer in selecting foreign nationals to participate in the Program.

If an officer who will assume alternate responsibility for administering the Exchange-Visitor Program designated herein has not yet been listed with the Department of State, the sponsor is encouraged to do so.

Very truly yours,

For the Secretary of State:

Paul S. Dwyer
Chief, Facilitative Services Staff

Memorandum

TO : Mrs. Henrietta Avery
Office of US Program & Services
Department of State

FROM : Chief, Planning Office
Office of International Health, PHS

SUBJECT: Application for Exchange-Visitor Program

DATE: February 26, 1968

Attached is the Application from the National Center for Air Pollution of the Public Health Service for an Exchange-Visitor Program in Air Pollution about which I telephoned you last week.

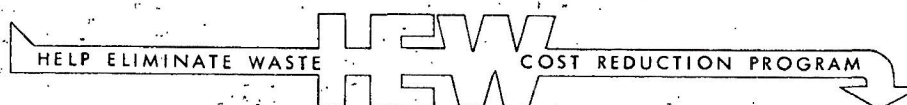

The activities which the Center plans to continue were formerly carried out under the Exchange Program of the former Robert E. Taft Engineering Center. The Robert E. Taft Engineering Center is now a part of the National Center for Urban and Industrial Health and is not concerned with the Air Pollution program in the Public Health Service. *G-V-178*

The Office of International Health has the responsibility of coordination of PHS participation in the Exchange-Visitor Program and we would appreciate a copy of future direct correspondence with the various PHS proper units.

We thank you for your past assistance in our efforts to develop this program and assure you of our continuing cooperation.

John C. Eason, Jr.

Public Health Service
Department of Health, Education,
and Welfare
Washington, D. C. 20201

Dear Mr. Eason:

I am writing you in your capacity as the Government Liaison Officer for the U. S. Public Health Service and refer specifically to the Exchange-Visitor Programs designated by the Secretary of State as sponsored by various offices of the Service.

Enclosed is a copy of Public Law 91-225, enacted April 7, 1970 and two information sheets, Implications and Notice, relating to this law. You will note that the two-year foreign residence requirement imposed by prior legislation on all foreign nationals in or entering the United States in exchange-visitor (J) status has been removed from all aliens except those (1) who have received U. S. or foreign government financing or (2) are from countries requiring their skills as contained in a list of such countries established by the Secretary of State. The country/skills list has not yet been established. Foreign nationals will be affected only by the list in existence at the time of their attaining exchange-visitor status.

The fact that the Service is a U. S. Government agency would appear to indicate that all participants in Service-sponsored Exchange-Visitor Programs will be subject to the two-year foreign residence requirement by reason of possibly receiving U. S. Government financing. However, I am requesting that the Service review this matter so the Department of State may have the benefit of the Service's position with respect to each of its Exchange-Visitor Programs as follows:

- G-V-4 Seymour D. Westermarck Division, National Center for Mental Health Services
- G-V-18 Arctic Health Research Center
- G-V-65 Bureau of Health Manpower, Division of Health Manpower Education Service.

- G-V-111 Office of International Research, National Institutes of Health
- G-V-171 Communicable Disease Center, Health Services and Mental Health Administration
- G-V-173 Consumer Protection and Environmental Health Service, Environmental Control Administration
- G-V-195 Federal Health Programs Service, Health Services and Mental Health Administration
- G-V-239 National Air Pollution Control Administration
- G-V-251 Maternal and Child Health Service, Health Services and Mental Health Administration
- G-V-254 Health Services and Mental Health Administration

Incidentally, we have no record that the required Annual Report for the period ending June 30, 1970 has been submitted for Program No. G-V-4.

Your early reply will be appreciated. If you have any questions, please telephone either Mrs. Henrietta Avery or me. We can be reached on code 101, extension 23166 or 23167.

Sincerely yours,

Paul A. Cook, Acting Chief
Facilitative Services Staff
Bureau of Educational and
Cultural Affairs
